Min Khant Zaw

Web Developer

ABOUT ME

I've studied Electronic and Communication subject in my university, YTU which is one of the most highest matriculation examination marks in Myanmar.I've been studying web development for more than 2 years and I've many projects and portfilio websites using HTML, CSS and JS. I also have a little experience in PHP and MySQL. I'm very interested in web development and I'll keep learning new skill to become a full stack developer.
